**CAUTION:** Many of our students don’t feel comfortable with the science requirement and often put it off until the last semester. This creates additional stress since you must have that class to graduate. It’s best to take the science class by at least halfway through the program. Our science classes are interdisciplinary, just as the other classes are.

If you are interested in taking courses outside of the MALS department, you may view other departmental offerings at UNCGenie, Class Schedule. You will need to pay attention to the footnotes, which indicate if there are prerequisites or major restrictions.

IMPORTANT: Bills will be sent electronically to those who register for the Spring Semester between November 1, 2011 and November 21, 2011. *No bills will be sent to students who register after November 21.* You must pay your tuition and fees by the deadline stated in your bill and/or in the registration calendar. Failure to pay tuition and fees by the deadline cancels your registration. Students canceled for nonpayment must reregister or seek reinstatement. Continuing students who are canceled must pay a late registration fee when they reregister.
